

3

Information on collection procedures (i.e., Year Reg and/or Area) has not been obtained.

4

Information on the accessibility of the data has not been obtained.

5

The inter-censal population estimates for the period 1990–2011 have been revised to account for the results of the 2011 census. We used a special method to redistribute the statistical error accumulated over the inter-censal period across years and birth cohorts (see Background and Documentation file for more details)
