Population estimates, 1840-1995, based on census data. Data were received directly from Statistics Iceland.

Comments

(Population)

Supposedly, until 1953 population estimates have been derived from census data, and for later years from National Population Register. Similar population estimates are available on the CD-ROM provided with: Guðmundur Jónsson and Magnús S. Magnússon, Eds. (1997). Icelandic Historical Statistics. Reykjavík: Statistics Iceland. Comparisons reveal that data are identical except for years 1952-1961 where minor differences are found.
